

## The Vision for Helsinki Region

**“The Helsinki Region is a dynamic world-class centre for business and innovation. Its high-quality services, arts and science, creativity and adaptability promote the prosperity of its citizens and bring benefits to all of Finland. The Metropolitan Area is being developed as a unified region close to nature where it is good to live, learn, work and do business.**

**The harmonious urban structure of the region is based on public transport; it is versatile by its operations as well as eco-efficient and low carbon. The compact core area is encircled by a network of distinctive centres.”**
